As there is a difference between "research fellow" and "fellow" at Harvard, please change my title to "Research Fellow" of the Belfer Center etc.

Jim's last name is spelled Dickson not Dixon, I believe.

Put OFF next to my 609 number, rather than "Lawrenceville".

Additionally, I believe the title "A Center for High-Integrity Electronic Voting Environments" will be misunderstood to suggest that more bogus electronic voting schemes will be developed, so I object STRONGLY to the name, despite its cutsie acronym. I suggest instead that you consider the following: "A Center for Creating Usable, Reliable, Auditable, and Transparent Elections" (ACCURATE)

Rebecca Mercuri.
